

React Native Expert Roadmap 2025 – 6-Month Self-Paced Tracker

By A. Saikrishna Achary

This 6-month roadmap is designed to help you become an expert React Native Developer using Hindi tutorials. It covers weekly milestones, project ideas, and interview preparation with direct YouTube learning links.

Month 1 – React & JavaScript ES6 Refresh

- HTML, CSS, and JavaScript (ES6+ features)
- React.js Basics: Components, Props, State, Hooks
- Hindi Playlist: Thapa Technical - React JS Full Course in Hindi
- Project: Simple ToDo App (React JS)

Month 2 – React Native Fundamentals

- React Native Environment Setup with Expo
- Core Components: View, Text, Image, ScrollView, FlatList
- Styling with Flexbox, Dimensions, and Platform APIs
- Hindi Playlist: Hitesh Choudhary - React Native Crash Course in Hindi
- Project: News App using API (React Native + Axios)

Month 3 – Navigation, API, and Firebase

- React Navigation (Stack, Tab, Drawer)
- Fetching Data using Axios / Fetch API
- Integrate Firebase Authentication and Firestore
- Hindi Playlist: WsCube Tech - React Native Firebase Tutorial (Hindi)
- Project: Login + Signup + Profile Management App

Month 4 – State Management & Animations

- Context API, Redux, Redux Toolkit
- Reanimated 2 & Gesture Handler
- Firebase Realtime Updates
- Hindi Playlist: Sheryians Coding School - React Native Advanced Concepts
- Project: Expense Tracker App with Animations

Month 5 – Real-World Projects

- E-Commerce App (Firebase + Razorpay)

- Food Delivery App (Maps + Stripe Integration)
- Chat App (Firebase Realtime Chat)
- Hindi Playlist: Nitish Kumar (Coding With NK) - React Native Projects

Month 6 – Optimization, Testing, Deployment

- Performance Optimization (useMemo, Lazy Loading)
- Testing with Jest & Debugging with Flipper
- Building and Publishing on Play Store (Expo EAS Build)
- Hindi Playlist: WsCube Tech - React Native Deployment in Hindi
- Interview Prep: Top 20 React Native Questions + Architecture

■ Tip: Watch tutorials daily, code along, and push your projects to GitHub weekly. Within 6 months, you'll have strong React Native skills and 2–3 deployable apps to showcase in interviews.
