

Underrated Tools for **MERN Devs.**

You know the stack!
Now **upgrade** your **toolkit.**

← **SWIPE** →

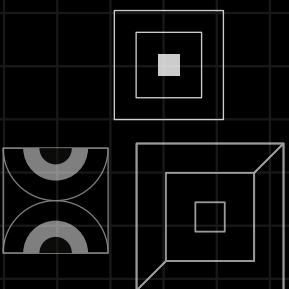

Prisma

Type-safe database client
that works great with **MongoDB**.

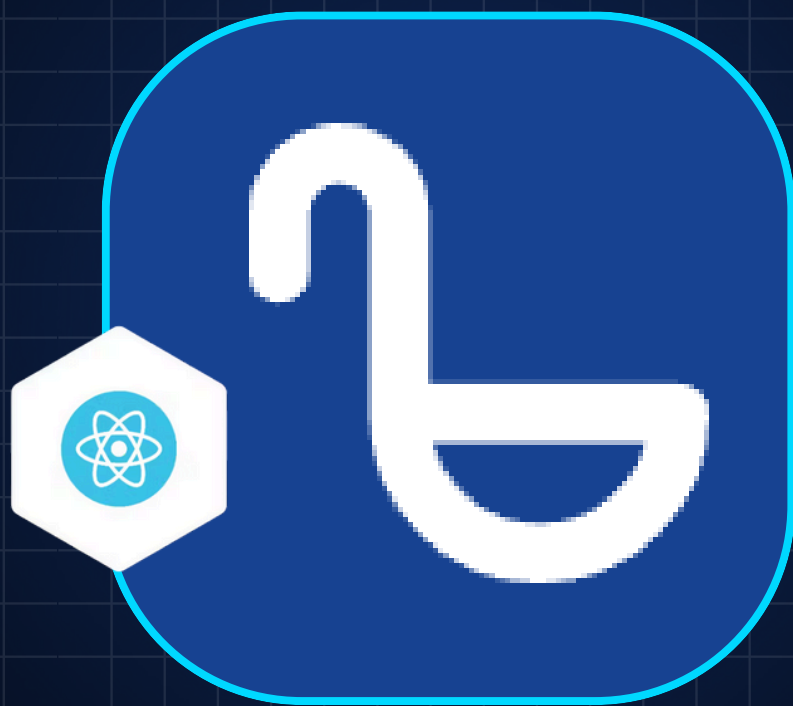

Write cleaner DB queries
with autocomplete and validation.

← SWIPE

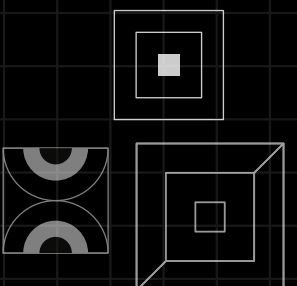

Ladle

A faster alternative to Storybook
for **React** components.

Preview and test UI components
with less setup and faster load.

READ
← SWIPE →

SWC

(Speedy Web Compiler)

Super-fast JS/TS compiler
used by **Next.js** under the hood.

Speeds up build times
without changing your code.

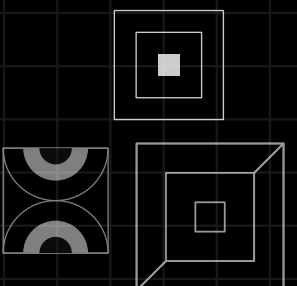

← SWIPE →

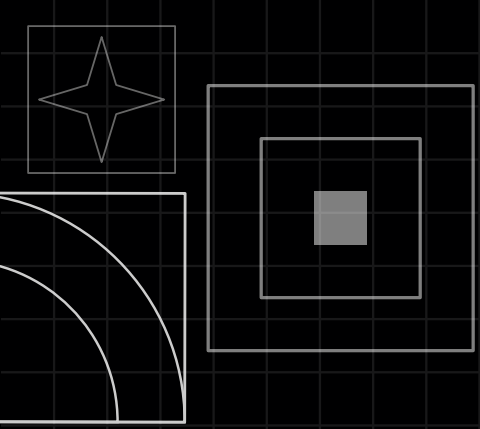

MongoDB Atlas CLI

Manage your cloud MongoDB databases from the terminal.

Create clusters, run backups, & more
—without leaving your shell.

Using MERN?

**These tools will make it
faster, cleaner, and smarter.**
